### RIISING TEMPERATURE TO BRING ONLY BRIEF RESPITE FROM COLD

#### ANOTHER COLD WAVE WITH HEAVY SNOW IS PROMISED ON FRIDAY

#### West In Grip of Winter—Deaths and Injuries Follow Storm

Columbus, Oct. 29.—The long heralded cold wave held Ohio in its grip today with prospects of rising temperatures this afternoon.

Temperatures throughout the state tumbled below the freezing mark during the night.

The drop followed in the wake of a general snowfall that began yesterday morning and continued intermittently until past midnight.

Rising temperatures were prophesied for this afternoon by the U. S. Weather Bureau.

Generally clear skies prevailed at sunrise this morning.

Temperatures throughout the state ranged from 19 to 25 above. Another snow storm is in prospect for tomorrow, the weather bureau announced.

Scores of fires directly attributable to the cold, occurred during the night.

In Cleveland, Thomas Calvert, 40, was injured while rescuing his wife and children from an apartment blaze. One of the children was burned. Calvert may die.

There was no let up in the numbing cold that has held sway in the midwest for forty-eight hours.

Snow fell in some sections of the Chicago area while the temperature fell to a new low of eleven degrees below zero at Cordon, Neb., with even lower temperatures reported in South Dakota.

Snow is sweeping eastward from Cheyenne, Wyo., railroads and telegraph companies reported.

At Omaha the Westbound airmail service was discontinued last night because of a snow storm. The east-bound planes were held up at Rawlins, Wyo.

In Chicago, the mercury reached a low of 19. Minnesota registered 17 but is expecting much lower temperatures tonight. Wisconsin also reported 17 above. Iowa temperatures dropped to a low of 11 below. Detroit felt the cold today. The thermometer dropped to 24, a drop of 5 to 7 degrees from Wednesday.

In Youngstown, Daniel Ceratti, 17, was asphyxiated by carbon monoxide fumes while warming up his car in the garage.

B. F. Danderfoot, Columbus, was overcome by monoxide fumes but recovered.

New York, Oct. 29.—New York felt the touch of winter today.

Starting with a gale and a short rain the cold wave swept the city and by midnight the temperature was 38 and at 5 a. m. was down to 32.

St. Louis, Mo., Oct. 29.—Winter's season debut was made here today with possibilities of rain, sleet, and snow.

During the night the temperature dropped to twenty-four degrees and there was little prospect of much warmer weather during the day.

Florida may face shortage of bread today spurred railroad officials and citizens in their efforts to solve Florida's traffic trouble.

With the railroads of the state almost swamped by an avalanche of shipments from the North, A. B. Lee, president of the Lee Baking Company operating several bakeries in Florida appealed to merchants to bring in food supplies by ships.

"It is vital that the present congestion of freight on the railroads be relieved," Lee declared. He pointed out that flour actually is scarce and that his bakeries were forced to buy it in small lots wherever they could find any. Five carloads of flour bound for Tampa have been lost enroute. The situation in Miami and a few other sections is acute.

Dayton Minister Ill at Conference

Columbus, Oct. 29.—Improvement was noted today in the condition of Rev. E. O. S. Crist, superintendent of the Dayton District of the M. E. Church, who was suddenly stricken while attending a Methodist conference here last night.

The nature of Rev. Crist's illness has not been determined. He is in White Cross Hospital.

#### SLAYER ESCAPES BY SHOOTING HIS WAY OUT OF POLICE TRAP

#### Killer of Department Of Justice Agent Sought By Police

Chicago, Oct. 29.—Police cordons were formed on Chicago's South side today in an effort to corner Martin J. Durkin, Cleveland who shot his way out of a trap last night and escaped.

Durkin, who was originally wanted for transportation of a stolen automobile from California to Chicago, shot and killed Edward Shanahan, a department of justice agent, ten days ago. Search for the killer spread from coast to coast but finally authorities learned he was in hiding here. Two officers cornered him last night in the apartment of his sweetheart, Mrs. Betty Warner, but he engaged in a gun battle with them, wounded one of them and again escaped unhurt. An uncle of Mrs. Warner, Lloyd Austin was killed by a stray bullet in the fight.

Failure of the officers to wound Durkin was caused largely by his sweetheart, who flung herself in front of the police revolvers and grappled with one of the blue-coats.

Every police officer on the south side today was ordered to "shoot to kill" if Durkin is sighted.

Durkin's home is in Cleveland. Police of the latter city have been searching for him.

Greek Troops Back Home Is Reported

Athens, Oct. 29.—Greek troops are again on their home soil.

Following out both the agreement made with Rumania as mediator and the orders of the League of Nations Council, Greece has completed the withdrawal of her forces from Bulgaria.

The withdrawal was finished at 5 a. m. today within the time limit set by the council.

With completion of the evacuation, the threat of real hostilities in the Balkans seemed past. Greece felt that she had shown her loyalty in the matter when yesterday she re-ordered evacuation even after Bulgars attacked the withdrawing forces.

There still remains the fixing of responsibility for the border trouble by the league of nations council, but all advices coming out of Europe tend to indicate that the council's intervention has proven efficacious and that the war danger has been curbed.

#### CHICAGO NEW RENO JURIST DECLARES

Chicago, Oct. 29.—Chicago has passed Reno and is now the divorce "capital" of the United States, according to Judge Joseph David.

David was assigned to a few marital cases because the regular courts were overcrowded.

He was surprised when one of the first cases was that of Edward B. Osler of New York who is credit manager of the Firestone Tire and Rubber Company.

"This is appalling," David declared in refusing the divorce. "Does this man believe he can sit comfortably in his New York office, send evidence out here to Chicago and get a divorce?"

"Chicago's easy divorce laws" apparently have gained nationwide attention and this city has passed Reno as the divorce "capital."

David then listened to the testimony of Mrs. Osler, who filed a counter petition for divorce and took the case under advisement.

National Gallery For Art Is Urged

Youngstown, O., Oct. 29.—A resolution urging congress to appropriate \$10,000,000 for creation of a national art gallery was adopted by the North East District Convention of the state federation of Women's Clubs in the closing session here.

The resolution was supplementary to those adopted by other district federations.

Mrs. Charles R. Fox, Cincinnati, state president urged members to lay the proposal before district congressmen.

National control of education through establishment of a federal department of education and enhancement of the United States into the world court, were urged in other resolutions adopted.

Lake Freighter Is Reported Overdue

Cleveland, Ohio, Oct. 29.—The steamer Anders, ocean going freighter is believed in trouble on Lake Erie. The boat enroute from Hamilton, Ont., to Cleveland, is 20 hours overdue.

The Anders left Hamilton Tuesday and was due here yesterday. A crew of 18 is aboard. Frank Lane, New York, operator of the boat, says he has little fear of the vessel foundering and believes the heavy winds near the Hamilton Locks have hindered her progress.

The Anders is the second sea-going freighter ever scheduled for Cleveland docking.

#### SUCCEEDS CAILLAUX HIMSELF AS PREMIER AND FINANCE CHIEF

Briand Will Support New Premier—Bonnet Directs Budget

Paris, Oct. 29.—A new Painleve cabinet was formed today.

Working almost until dawn, then snatching a brief rest, Paul Painleve succeeded in forming a cabinet to replace the old Painleve regime which resigned Tuesday in order to shake off finance minister Caillaux.

In the new cabinet Painleve is premier and finance minister.

Upon him now devolves the task in which the picturesque Caillaux failed—restoration of France's finances to a state of clarity and health.

Supporting him as before is Aristide Briand in the foreign ministry.

The official cabinet list follows:

Paul Painleve, premier and minister of finance; Aristide Briand, foreign affairs; Chaumery, justice; Abraham Schrameck, interior; Daladier, war; Emile Borel, navy; Vondelbos, instructions; Jean Urard, agriculture; Paul Durauffour, labor; Antierou, pensions; Perriere, colonies; Daniel Vincent, commerce; Anatole DeMonzie, public works; Bonnet, budget.

Painleve abandoned an earlier thought of again assuming the war ministry post which he held in his first cabinet.

This went, however, to M. Edouard Daladier who held office in the Herriot regime as a minister. Painleve also drew from the Herriot ranks when he took M. Camille Chautemps as justice minister.

Georges Bonnet, who will have the difficult budget work is a member of the chamber and had served heretofore as Parliamentary under-secretary of the premier.

The personnel changes mean little, but the policy change that goes with formation of the new cabinet is important. The old cabinet went out to rid itself of Caillaux who fought against the capital levy as a means of righting French finances. This is demanded by the groups upon which the new cabinet relies for support but it is generally admitted that Painleve must show prime statesmanship if he steers this new group through the Parliamentary pitfalls.

It is almost certain that Painleve will be forced to advocate a tax on agriculture, a capital levy and he probably will not be able to avoid further inflation. The new cabinet will appear before Parliament Nov. 4.

NEW OFFICERS ARE INSTALLED BY O. E. S.

Columbus, Oct. 29.—Thirty-sixth annual convention of the Ohio Chapter, Order of Eastern Star, came to a close today with formal installation of officers.

Mrs. Elizabeth M. Hood, Cleveland, was installed as grand worthy matron and Geo. L. Behrens, of Columbus as grand worthy patron.

Mrs. Ella Verneeder, Cincinnati, was seated as associate grand matron and George Philpott, Elyria, as associate grand patron.

Mrs. Elizabeth E. Walton, Perrysville and Mrs. Bessie F. Boyce, Mt. Sterling, were inducted as treasurer and grand secretary respectively. They were re-elected.

COUNTY SUED AS KLAN RIOT CLIMAX

Warren, Ohio, Oct. 29.—An echo of the Niles Klan riots of last November was heard here when George E. Victor, Farrell, Pa., filed suit for \$5,600 damages against Trumbull County Commissioners for injuries received during the outbreak. Victor alleges he was motoring through Niles when he was dragged from his machine, shot at, kicked and stabbed, due to lack of protection from the county.

#### BANDITS STEAL \$117,000 IN CASH FROM MONEY CAR OF BUFFALO BANK

#### Driver Killed By Thugs When He Offered To Resist—Daring Robbery Takes Place While Hundreds Were Passing Scene

Buffalo, N. Y., Oct. 29.—Bandits today held up the money car of the Bank of Buffalo, shot and killed the driver, wounded the guard and escaped with currency reported to amount to \$117,000.

A package containing \$24,000 was dropped by the bandits in their flight.

The holdup occurred at 9:30 a. m. while the money was being loaded into the bank van. Charles W. Clifford, driver was killed instantly when he offered resistance. Guard John H. Myers was shot through the body.

The scene of the holdup was the New Bank of Buffalo building at Main and South Division Streets. Hundreds of people were passing the building at the time.

The bandits quickly gathered the money bags and threw them into their automobile in which they made good their escape.

#### BRITISH CONSUL AT DAMASCUS PRESENTS CLAIMS FOR DAMAGES

#### Charge French Warned Own Citizens—U. S. Asks Protection

London, Oct. 29.—The British consul at Damascus has presented claims against France for damage to the property of British subjects in the recent French bombardment of the city.

Dispatches yesterday charged that the French warned their own citizens before the evacuation of the city but left other foreigners without advices of the impending action.

Washington, Oct. 29.—The United States government has instructed Ambassador Herrick at Paris to make representations to the French government relative to affording protection to American lives and property in Damascus and other Syrian cities, made necessary by the continuing disturbances in the Levant, where French troops and Druse tribesmen have been at grips for some weeks.

Cyminating in the bombardment of Damascus, the state department took the positive step of calling to the French government's attention of its responsibilities toward foreigners in that region.

Consular officials at Damascus at the same time were instructed to advise Americans in the danger zone to move to Beirut on the Mediterranean coast.

The United States Destroyers Coghlan and Lanson, have arrived at Alexandria, Egypt where they are maintained in readiness to proceed to the Syrian coast.

While state department officials were silent on the subject, it was believed possible that the American government coupled with its representation a protest against bombardment of Damascus by the French allegedly without warning, thus endangering American interests there.

Official indications were given at other departments of the government that reparations for such damages might be asked of France.

The decision to approach the French government followed receipt by the state department of official advices from J. H. Keely, American Consul at Damascus relating in detail the bombardment of the city, the parading of dead Moslem tribesmen, strapped on backs of camels through the streets at the instance of the French command, and other features of the attack on the city.

SEEKING OUSTER

Columbus, Oct. 29.—Charles G. McChale, Youngstown, today asked Attorney General Crabbe to institute suit to oust members of the Youngstown township park commission. The request was based, primarily on Crabbe's opinion of last month, holding the City act, under which the commissioners held office, is unconstitutional. Other charges were involved but were not revealed.

WATCHMAN FOUND DEAD AND BURNING—NO TRACE OF SLAYER

Akron, O., Oct. 29.—With no apparent solution at hand, authorities today were confronted by the most ghastly murder in the annals of Akron.

The victim, Joseph Obermeyer, 55, nightwatchman at the Hyde Garage here was found this morning, his skull crushed by a machinist's hammer and the body saturated with gasoline, slowly burning.

There was no evidence of a struggle. The body was found by firemen who broke into the garage which they believed was burning.

The motive for the murder and the attempt to conceal the gruesome crime by the use of fire, has not been determined.

Two suspects, one of them a negro employed in the garage, were arrested, but both denied any knowledge of the crime.

How access to the building was gained is unknown. Police found the doors locked and tightly barred. One window appeared as though it had been entered.

Obermeyer was well known in Akron's German colony. In pre-prohibition days, he was proprietor of a saloon here. He also was a member of the German Bavarian Society.

A widow and three children survive him.

#### MITCHELL'S MOVE TO DISCREDIT COURT IS OVERRULED BY BODY

#### Prosecutors Begin Offensive As Motion Is Argued

Washington, Oct. 29.—The army courtmartial trying Col. William Mitchell today rejected his contention that it lacked jurisdiction.

After hearing arguments for and against sustaining the defense's challenge, the court at a ten minute secret session, sided with the government and ordered the trial to proceed.

Mitchell and his counsel had contended that constitutional guarantees of free speech, safeguarded army officers in criticizing their superiors.

Army prosecutors refuted the argument, saying discipline in the army would be impossible if such were the case.

Major General Howze, president of the court, announced the decision. The court took up the eight specifications of the charges one by one and voted on the jurisdiction question in connection with each. The members filed in and out of the room to announce their decision on each charge.

"Discipline and control under such a view of law would vanish and the army would become a mob."

Reid answered Moreland briefly, declaring his argument lacked facts.

"Col. Moreland bases his whole argument on tradition," said Reid. "How could anybody ever be convicted for violating tradition?"

"I maintain there is no law, statute or common law to cover the question we have here. The prosecution has failed to cite any law. Nobody has ever stated and no law states that this is a crime."

"The trial judge advocate will not say that Mitchell's statement is false, libelous or that the statement constituted slander."

"If you people can say that this is a crime and this is a law, and that fellow and that fellow can be punished then some change must come."

"This is the same idea as that of lynching a truth-teller. Are we going back to the old Athenian methods of banishing by vote?"

"If everything the prosecution has said about the power of a courtmartial is true then a courtmartial is greater than God."

OHIO KLAN REALM TO VOTE AGAINST THREE AMENDMENTS, WORD

Osborne Says Loss of Proposals Assured By Klan Action

Columbus, Oct. 29.—The Ohio Realm of the Ku Klux Klan will vote against the three proposed constitutional amendments next Tuesday, grand dragon Clyde W. Osborne announced today.

Osborne in a statement issued in connection with the announcement, declared that "this means the defeat of the amendments as more than 125,000 klansmen will vote against them."

Osborne's declaration was received without comment in republican and democratic circles, although the statement is in direct support of the attitude taken by the Democratic party.

"The four year term amendment contains a 'sleeper' designed to continue certain men in office. In the opinion of constitution lawyers" Osborne's statement said.

"The debt limitations amendment" the statement continued, "is already a law and should not be put into the constitution. It is only submitted as a bait to obtain 'yes' votes on the other measures."

"The classification amendment" would not be necessary if the tax dodgers were to get religious. They will evade it anyway. A special privilege group is promoting it."

"This amendment would place automobiles in the same category with intangibles and would subject them to taxation as may suit the whim and caprice of the legislature" Osborne's statement said.

In conclusion Osborne said the tax dodgers were to brush the dust from the family Bible and read the ten commandments.

"Then they will not need the constitution to keep them from lying and perjury" he declared.

Action on the proposed amendments was taken at a recent meeting of the grand Titans in Cincinnati.

# MILLEDGEVILLE BANK ROBBER CAUGHT IN CALIFORNIA; STOLE MANAGER'S AUTO

A six weeks country-wide search for the bandit who on September 9 held up and robbed the Milledgeville Bank of \$1,000 and escaped in a stolen automobile, has terminated with the arrest in Los Angeles, Calif., of Gordon Thomas, 27, of Sedalia, O., according to word received Thursday.

Gordon fled across the continent in a stolen auto with police at his heels but succeeded in evading authorities and entering Mexico. His capture was effected when he courted arrest by venturing into California it is learned.

Thomas was identified as the robber by Miss Fern Fitchthorn, assistant cashier at the Milledgeville bank, who was alone in the bank on the afternoon of the holdup. An old offender, Dayton police kept on file his photograph and when shown to Miss Fitchthorn, she positively identified Thomas as the lone bandit.

Records show Thomas was trailed across the country by police of Arizona, New Mexico and other western states, who failed, however to effect his arrest.

The suspect is accused of robbing the bank and making his temporary escape in an automobile belonging to City Manager S. O. Hale, this city. The machine was later discovered

abandoned in a corn field near Jeffersonville by Motorcycle Policeman Peter Shagin.

On the afternoon of the robbery, a stranger strolled into the bank and asked to see a wall map. Miss Fitchthorn obligingly showed the maps and the man started to leave. He suddenly whirled and pointing a pistol, tried to intimidate the girl cashier and demanded money. She pluckily told him there was no money and he scooped up all the cash at the window and fled.

Other charges against Thomas include the theft of an auto belonging to O. W. Peters, Dayton, June, 1925. He is wanted by Dayton police in connection with this charge for jumping \$5,000 bond.

## Old Folks Must Not Use "Physics"

DR. CALDWELL

While Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, knew that constipation was the cause of advancing age, he did not believe that a "purge" or "physic" every little while was necessary. To him, old people had to be kept "stomached" and half sick, taking cathartics, pills, tablets, or calomel and nasty oils every day or two.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels of old folks. A single dose will establish natural, healthy bowel movement for weeks at a time. Even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement, but, best of all, it is often mont before another dose is necessary. Besides, it is absolutely harmless and pleasant to take.

If past fifty, buy a large 60-cent bottle at any store that sells medicine and just see for yourself.—Adv.

## THE SCHOOL LEVY

When a community or municipality reaches the place where it is impossible to give its youth the advantages of free public education under American standards, its function as a community or municipality will not only have greatly diminished but will be bordering on absolute disintegration.

Members of the Xenia City Board of Education, who, by the way, serve without pay, and can have no ulterior motive other than the interests of the city's educational system at heart, say Xenia's public school system will practically cease to function as such unless voters at next Tuesday's election pass the three mill school levy proposal.

Failure of the levy to pass will cut the income for school purposes one third, make necessary a reduction by one-third of the teaching force, make necessary the reduction of salaries of teachers retained so that the quality of teaching will be jeopardized, and will not only curtail progress and hamper standards achieved after long time and effort, but will necessitate cutting the school term from three to four months. With a nine months term in vogue now, this would mean that school sessions would only be held from five to six months each year.

Such a move would jeopardize the qualifications of Xenia's future citizenry, hamper the education of her youth, besmirch the fair name Xenia schools have had in the past and eliminate the Xenia high schools from the list of first class high schools in Ohio. Curtailing of school revenues now would in other words, be educational suicide.

Voters passed the three mill levy in 1920 and the board only asks that this action be renewed now. Taxes will not be increased over the present rate but instead, by virtue of a decrease made in the city administration budget, voters will pay less taxes next year than they did this.

Everyone interested in the welfare of Xenia should vote Yes on the three mill school levy.

## IMPORTANCE OF THE INTANGIBLE.

THE chemist can count calories and the astronomer can predict the flight of stars but who can measure the intangibles?

Two men give the same speech. One leaves the audience cold and listless while the other fires them with enthusiasm until they leap to arms ready to die like heroes. What makes the difference? It is the intangible something called personality.

A business is sold. When the stock is invoiced and all the property listed, a sizable sum is added to compensate for the "good will" which the firm enjoys, but who can estimate the value of good will? It is an intangible.

It is the flavor of an apple, the style of a writer, the fragrance of a rose, the way of a woman, the atmosphere of a home, the individuality of a car that determines its value. These things are all intangibles.

These things defy the analysis of the test tube or the measure of the laboratory scales.

Because we cannot measure or analyze the intangibles they are squandered recklessly.

Samson, dallying with Delilah, awoke from his sleep with his locks shorn and "knew not that his strength was departed from him." The youth in search of thrills sacrifices his honor and despoils his chivalry and knows not that another look has come into his eye, another tell-tale swagger in his gait, that eager good men and discerning women to distrust him.

The business man, absorbed in money getting, ridicules the idea that he has lost anything, for he cannot measure the sacrifice of the intangibles when he stooped to dishonor to make money.

It is difficult to prove to the flapper that she is junking beauty of incalculable charm when she discards womanliness for masculinity.

Of course she has the same right to be "wild" that her brother has, but it costs her far more in the intangibles.

The house may be the same and the pictures on the wall unchanged, but the whole family knows when "something goes wrong." It cannot be proved nor produced as evidence. But an intangible something has gone when husband and wife no longer walk the way of life together with a perfect understanding.

Stand guard over your intangibles for in them is the wealth of life. Fight for your intangibles for they are that which makes you most essentially you.

In the days gone by, and I whisper low, Their pace was swift, though I thought it slow, I never reckoned my stomach's size, But I tried to quiet my hungry eyes, And I had no fear of a pain or two, I'd eat whatever seemed good to chew.

In the land of youth I need to dream, Of mountains of cake and rivers of cream, And I used to think, as we older grew, With sharper teeth we should sit and chew, I thought when I came to a man's estate

## PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

Thousands of kidney sufferers have tried remedy after remedy with only temporary benefit. That's mighty discouraging! But one kidney remedy has earned a reputation for lasting results and there's plenty of proof right here in Xenia.

Read the experience of one who used Doan's Pills years ago and now makes her endorsement even stronger.

Mrs. David Pohl, 751 W. Second St., Xenia, says: "I suffered with lame back quite frequently, but the most annoying symptom was the irregularity of my kidneys. I felt languid and it seemed I couldn't get any rest. Doan's Pills from Donges' Drug Store cured me entirely."

OVER FOUR YEARS LATER, Mrs. Pohl said: "I have had no further occasion to use Doan's since they cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Pohl had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## Face and neck covered with eruption

Resinol cleared it away

Brooklyn, N. Y., Dec. 26:—"I think Resinol Soap and Resinol Ointment are wonderful—I was a sufferer from skin trouble and I know what they did for me. I had only a few pimples at first, but this infection soon spread until they covered my face and neck and made me look disgraceful. They irritated me so I could scarcely keep my fingers off them. I tried various treatments, but none gave more than temporary relief. A friend recommended Resinol and I bought a jar of ointment and a cake of soap. After the second application of each, the itching stopped and when I had used the Resinol products for five weeks, there was not a trace of the trouble left." (Signed) Arthur Smith, 489 Hudson Ave.

## Today's Talks

## THE WRITER

There is something very important in the expressing of yourself upon paper. In the first place, you think more carefully, and you learn to express exactly what you think.

Writers, as a rule, are not so careless in their talking as those who never commit their thoughts to paper.

He who writes his thoughts out is all the time training his mind to see with his eyes. He is always looking for something more.

Thus the writer lives a much fuller life than the one who does not write. This does not mean that everyone should become a writer for pay, but a writer for improvement.

These daily talks are not written by one who claims to be any writer of note. He is just an everyday business man who began several years ago to write that he might improve his own thinking, and thereby express his thoughts in such a manner as to help others as he himself would like to be helped.

So that these Talks become a sort of daily diary in a way.

Since I have been writing I find myself watching people more closely studying everything in nature with greater zest and taking greater pleasure in the written expressions of others.

Then, again, what is written becomes the best of a man's expression. What a loss to life and literature had Joseph Conrad chosen to live out his life as a man of the sea and not

committed to paper his powerful, matchless thoughts. We have learned from his great books, what a great character he had. And now that he is gone we finger his books and look into the strong lined face and murmur courage for our daily tasks. Only those attain eminence in writing who have something helpful to say. A message that is needed in this sick world.

## Married Men Only—Attend-SHUN! Burn After Reading

### Ranges!

A Copper Clad Range, wood or coal burner, copper lined, with asbestos filling costs \$135.00 and enables you to save coal, get meals quicker, better cooked and with plenty less excitement. Food tastes better, digests quicker, keeps the wife happier, does away with indigestion, headaches, sour stomach and cold feet. If the women in your household read this, you're sunk! They'll stick you for one of these SURE! Burn the paper.

### W. F. W. M.

Wimmen of India take soiled clothes, slough 'em in the creek, beat the buttons off 'em with rocks and are perfectly satisfied! If THEIR husbands would bring home one of these Woman's Friend Washing Machines run by gasoline or city power or farm plant power, they would worship the old boy as a saint! Yet we KNOW that there are plenty of women folks right here in Greene County who still wash the old-fashioned way! Burn this too.

Not that either one of these are needed, but they'd make a lotta conversation. Strangers always asking "WHY DID you build such things?" I'm practicing handling money so I'll not die of heart failure in December.

## O. C. COLVIN NAMED MASTER OF POMONA GRANGE AT MEETING

O. C. Colvin, Caesar Creek, was elected master of Greene County Pomona Grange, at the annual meeting at Charity Hall, Dayton-Xenia Pike, Wednesday.

Mary Wood, Spring Valley, overseer; Mrs. Walter St. John, Jamestown, lecturer; Erle Hutchison, Xenia, steward; John Bigler, Charity Grange, gatekeeper; Mr. and Mrs. Ray Fudge, assistant stewards; J. F. Gordon, Jamestown, chaplain; Walter St. John, Jamestown, treasurer; Mrs. G. M. Keach, Jamestown, secretary; Mrs. S. H. Shawhan, Beaver, Ceres; Mrs. Guy Gordon, Jamestown, Pomona; Miss Mary Jones, Caesar Creek, Flora.

Opposition to the proposed tax classification amendment was voiced in the address of Representative Charles Brand, Urbana, who was the chief speaker of the day.

He declared the Legislature and Congress should not be given any more power than necessary and that they had usurped the rights of the people too much already. "It was just this sort of thing which led the Pilgrim forefathers to America—unjust taxation," he stated.

The subject was discussed by Grangers after the address, and a resolution was adopted voicing sentiment against the proposed amendment.

Reports of the county Granges were given and showed the organization to be in good condition.

Next County Pomona meeting will be held in Jamestown in January.

## MANY ARTICLES IN W. C. T. U. PUBLIC SALE

Committees of the Greene County public sale reported at the meeting

of the County W. C. T. U. executive committee Tuesday, at the First Baptist Church. The reports showed that the sale will cover a wide range of both thorough-bred and common stock of many varieties and almost anything one could want in furniture, implements, rugs and antiques. Many samples of grain and hay have been offered for sale.

The committees need victrolas, single and three-quarter beds to complete the list and are endeavoring to list these articles.

Committees for the luncheon to be served in the dining room during the sale at the Fairgrounds, were appointed and assure good food, all home-cooked. The sale will start by 9:30 a.m., November 6, and the women are enthusiastic over the prospects for a large attendance.

Messenger and J. H. Whitmer, secretary of the three social Masonic bodies.

## WELSH SINGERS TO APPEAR HERE HAVE WON MANY LAURELS

Madame Gwladys Cutter, Welsh soprano, who is one of the Welsh singers to appear at the First Presbyterian Church here November 4, has won many laurels in Wales and England.

The Druid-Welsh paper for America said of Madame Cutter: "Wales has contributed many sweet singers that have proven a welcome acquisition to the musical forces of America and the latest addition is Madame Gwladys Cutter."

She has appeared in the leading roles in the works of the great masters and her services were in frequent demand in the large cities of England and Wales.

The second member of the Welsh company is D. Edgar Davies, who has not only made a name for himself in Wales, but has had four successful seasons in America. He, too, is the winner of the national honors of Wales.

The third member of the company is Miss Irene Selby, who is a concert pianist and reader. She will present intermission selections as well as readings.

Sunday School of the First Presby-

terian Church, with D. D. Jones superintendent, is instrumental in bringing this company to Xenia. The program will begin at 8:15 p.m. Tickets can be obtained from members of the Sunday School or at D. D. Jones' drug store, East Main street.

## THIS WOMAN'S REMARKABLE RECOVERY

Entirely Due To Lydia E.  
Pinkham's Vegetable  
Compound

Forest City, Iowa. — "My first child lived only a short time and I was sick for a year after.

When I bent over and raised myself up again I could almost scream with pain in my back. One day I was so bad that I had to leave my washing and get ready to go to the doctor. He gave me medicine but it did no more good than if I drank just water.

Once when we had been in town a little book telling about Lydia E. Pinkham's Vegetable Compound was left in our car. I have taken five bottles of the Vegetable Compound now and I do all my housework and help with the milking and taking care of chickens and garden. Besides I have a fine baby girl eight months old, just the picture of health and I am feeling fine myself. You may use this letter as a testimonial and I will answer any letters asking about the Vegetable Compound."

—Mrs. OSCAR F. BORGES, Route No. 5, Forest City, Iowa.

## Builds muscle too-- COCO-COD

(The cod liver oil flavored with chocolate)

**A** VIGOROUS body—an alert mind! They go together. Coco-Cod makes both. It feeds sinewy strength and energy into the blood and nerves—it builds the vital body which produces the active mind. So through Coco-Cod, youth finds a new power to resist diseases and infections—to meet the world and carry on to success.

A B C and D vitamins (derived from vegetables, eggs and yeast) blend their body-building, vitalizing qualities to pure cod liver oil and chocolate flavoring, to make Coco-Cod. Thus you have a preparation with more than the tonic qualities of Cod Liver Oil, prescribed by doctors generally for rickets, anaemia, nervous disorders, undernourishment, general run-down and convalescent conditions. You have these tonic qualities plus the four vitamins essential to the system—in a form that's really good to take.

Results are surprisingly prompt, too, as Stephen Apted, Monadnock Block, Chicago, testifies: "I had no idea that a tonic could act as promptly as Coco-Cod did in my case. Lost my appetite and usual liking for work. Thanks to Coco-Cod, I had both back in two weeks."

# SCHOOLS TO CLOSE PART OF SESSIONS IF LEVY DEFEATED

School authorities issued their third and last bulletin of a series to encourage sentiment for the proposed three mill school levy Wednesday.

The bulletin was distributed through school children. It shows the anticipated school expenditures as cared for in the budget for 1926 and the income derived from taxes and its use.

The budget, the bulletin shows, anticipates an expenditure of \$76,415 for teachers' salaries; \$26,255 for janitors, supplies, repairs, heat, light water, telephone, insurance and books for 1,250 pupils in grades 1 to 8; and \$2,697.86 for the teachers' retirement fund as required by law. These expenditures total \$105,367.86.

Anticipated receipts for the year include \$96,700 from taxes and the special levy from the county auditor and \$8,446 in tuition paid by pupils from other school districts, or a total of \$105,146. Slight income is received also from rental of the school auditorium and other school property.

A table of millage distribution for school revenues shows 1.80 mills received from within the ten mill limit, goes to the general fund and .20 mills from the same source to the teachers' retirement fund. Between the ten and fifteen mill limit, the schools receive .35 mills for the general fund and .40 mills which goes to the sinking fund. From state taxes, 2.65 mills goes into the general fund and by the vote of the people several years ago the schools receive 3.00 mills for the general fund and 4.17 for the sinking fund.

The 3.00 mills in the last item is the special levy to be voted upon next Tuesday as it passed several years ago for a five year term and is merely coming up now for renewal. The general and retirement funds are for operating expenses only and total 8 mills. The sinking fund millage totals 5.57 mills, which shows that 41 per cent of the total revenue goes to pay debts incurred in the past.

The board is now seeking to retain the three mill levy voted in 1920 and now in effect, with which the schools can be operated at standard and without which, school authorities say they must close for three and one-half to four months of the regular nine months' term.

# FEW ABSENT VOTERS BALLOTS GIVEN OUT

The absent ballot vote for the November 3 municipal elections in Greene County is unusually light as the election draws near, it is announced by Earl Short, clerk of the election board.

Only eighteen voters expecting to be absent at election time have availed themselves of the absent ballot vote privilege which is a great decline from the presidential election absent vote, 1,300 says.

Voters are advised they may obtain the ballots from Mr. Short in the clerk's office in the Court House. The dead line for this form of voting is Saturday, October 31, at midnight, according to the Ohio election laws.

# Health Hints by the Father of Physical Culture

The real cause of constipation in virtually every instance is the want of vital vigor of the structures and tissues involved.

Digestion, though to a certain extent a chemical process, is very largely mechanical. The muscles of the stomach "churn" the food in the beginning of the digestive process, after which the circulatory muscle fibers of the small intestines continue the work. If these muscles are lacking in tone, if they are prolated and weak, then they cannot properly perform their functions. In attempting to strengthen this important part of the bodily organism the necessity for increasing the vigor of the muscular tissues must invariably be definitely recognized. Strong muscles for carrying on the work required of these blood-making organs are of far more importance than strength of the external muscles. For this reason when the system is toned up, any means a beneficial change in the alimentary functions and excretions will always be noted.

When the contents of the alimentary canal are allowed to accumulate for a considerable period and there is sluggishness throughout the various parts of the small and large intestines, poisons of all kinds are generated and absorbed into the circulation, thus creating conditions ranging all the way from a feeling of lethargy to a condition of weakness and disease that confines one to an invalid's bed. Therefore it is extremely important that you should realize the necessity for active elimination.

It is necessary in the maintenance of alimentary health to avoid a slavish adherence to the theory of definitely regular movements of the bowels and still not to make the mistake of allowing them to become chronically sluggish or irregular. As a rule you should depend upon having regular movements each day, though if occasionally a day is missed you should not allow this deviation to worry you.

However, should the bowels fail to move at the regular time this need cause no concern if you are feeling "up to the mark," and there are no other symptoms that would indicate possible trouble.

# FACTS About The Three Mill School Levy

1. It does NOT mean an increase in taxation.
2. It does NOT mean increased expenditures by the Board.

# IF THE LEVY FAILS

1. The Xenia Schools can operate but five months or less each year.
2. No experienced, trained teachers can afford to stay in Xenia.
3. The High Schools will be dropped from the accredited list and their graduates refused admission to colleges and universities which they now enjoy.

# DO NOT BE MISINFORMED

Xenia Schools can and will operate within their income, but they cannot stay open without the three mills they have received in the past.

Mrs. Class Praises Perfection  
"I have used my Perfection for six years and heartily recommend it as a safe and dependable stove. The heat is easily controlled and the oven is a wonderful baker," writes Mrs. J. Albert Class of Des Moines, Iowa.

She was pretty—Bob's fiancée—Dad admitted. But, could she cook? \*\*\*

Sweet and fresh as a morning rose, she greeted Bob's folks when they came to Sunday dinner.

Such a meal! Good and substantial, the kind Dad liked—tender roast pork, well-browned potatoes, dressing, ruddy baked apples, and pie. One whiff, and he was completely won over.

"How did you do it?" asked Bob's mother admiringly.

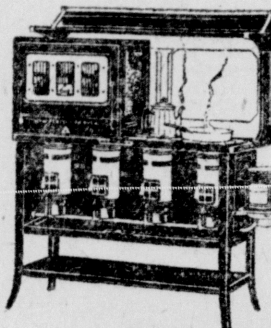

"It was easy," she replied. "I cooked the whole meal, except the salad and tea, in my Perfection Oven. I did not have to stand over a hot stove stirring and mixing. And I saved fuel, too. I'm glad you like it."

"What do you think of her?" Bob asked triumphantly, turning to his Dad.

"Great!" responded his father enthusiastically.
